

What is Python?

↳ Programming language

700 +

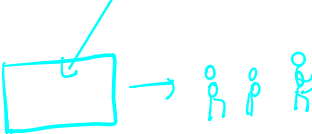

Python

Why Python?

↳ simple → Grade 10

Grade 4

↳ Community -

↳ fast Bug → 

↳ Compatibility

WHAT IS PROGRAMMING?

Just like we use Hindi or English to communicate with each other, we use a programming language like Python to communicate with the computer.

Programming is a way to instruct the computer to perform various tasks.

WHAT IS PYTHON?

Python is a simple and easy to understand language which feels like reading simple English. This Pseudo code nature is easy to learn and understandable by beginners.

FEATURES OF PYTHON

Why

- Easy to understand = Less development time
- Free and open source
- High level language
- Portable: Works on Linux / Windows / Mac.
- Fun to work with!

Your first Code:-

`print("Hello, World")` →

↳ function to print as output

↳ function to print as output

`print('Sophie')` → Sophie

What are Literals?

↳ fixed value

name ✓

age ✓

wt ✓

current

“ ” ← string → sequence of characters

↳ `'19ahc'` → String

↳ `"to"` → String

print → Output

Sophie → Input → input

Input Function in python :

`name = input( )` ←

`print(name)`

`age = input( )`

`print(2 * age)`

✓
`print(2 * age)`

Note : input always takes input as string by default

Error

`age = 24`

Expected Output = 48

Actual Output = 2424

`"24"` → string

`int(age)` → `"24"` → 24

```
age=int(input())
print(2*age)
```

Variables:

↳ containers to store values

↳ like the most
↳ Name
↳ age
↳ list of vegetable
↳ list of hobby

Rules for Python variables:

- Contains alphanumeric characters and underscores (A-Z, a-z, 0-9, and _)
- Cannot start with a number.
- Starts with a letter (case sensitive) or the underscore character.

page x
9 wt x
→ _age ✓
#

Case Sensitive:-

↳ AGE > different
↳ age

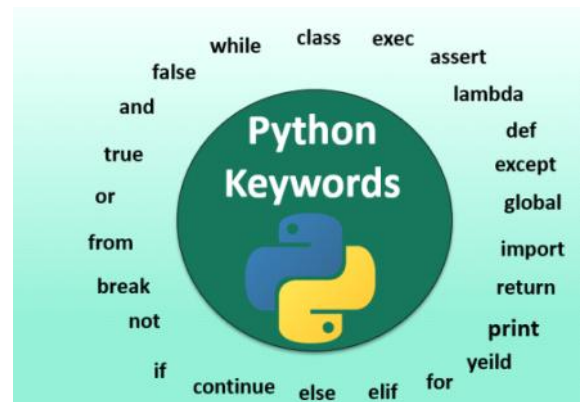

spaces not allowed

Quiz;

- student_name ✓
- 2students x
- _count ✓
- first-name x
- total_marks ✓
- class ✓
- userAge ✓
- user age x
- price_2026 ✓
- 2026_price x
- __init__ x
- myVariable ✓
- salary\$ x
- employee_id ✓
- for x
- is_active ✓
- roll_no_1 ✓
- #count x
- PI_VALUE ✓
- student@name x
